## PROJECTS

### Restuarant Management System

Developed a Restaurant Management System using HTML, CSS, JavaScript, PHP, and MySQL to manage orders, menu items, billing, and reservations. Implemented user-friendly interfaces and database-driven functionalities to streamline operations and improve service efficiency.

### Real-time Chat Application

Developed a real-time chat application enabling users to send instant messages, create group chats, and share multimedia content.

### Stock Management System

Developed a Stock Management System using React, Node.js, HTML, CSS, and MariaDB to track inventory, manage stock levels, and generate real-time reports. Delivered a responsive, user-friendly interface with efficient backend operations for improved business productivity.
